Re: Request for Certificate of Correction

Consideration has been given your request for the issuance of a certificate of correction for the above-identified patent under the provisions of Rule(s) 1.322.

Respecting the alleged error(s), in Title Page; the corrections not approved are the corrections to the title pages. With respect to Title page 1 and replacing "392/466" with "219/299", it is not approved because "392/299" is the updated classification where the patent is currently classified. "219/299" is the old out-dated classification. With respect to adding "Europe 82109154.3 10/1982" under the heading "Foreign Patent Documents" It is not approved because this reference was not considered by the examiner (reference crossed-thru in 1449 mailed 2/22/2006) because a copy was not submitted by Applicant and is not located within the application file. **"Therefore, no correction(s) is in order here under United States Codes (U.S.C.) 254 and the Code of Federal Regulation (C.F.R.) 1322."**

In view of the foregoing, your request in this matter is hereby denied.

A certificate of correction will be issued to correct the remaining errors noted in your request.
